COMPANY PROFILE

LINEMAX ENGINEERING

The information contained in this company profile is the property of Linemax Engineering (Pty) Ltd. and may not be repurposed commercially or reproduced without the written consent of the company.

COMPANY OVERVIEW

Linemax Engineering (PTY) Ltd, established in 2015, is a premier construction and engineering firm, proudly 100% (Level 1 BBBEE) black-owned and helmed by experts in mining, petrochemicals, and power generation.

Our unwavering commitment is to deliver excellence in integrated solutions, setting new benchmarks in quality and value across our chosen sectors.

With a proactive approach to risk management and a focus on sustainable growth, we ensure unparalleled customer service while forging strong partnerships in both public and private sectors.

Our Vision

We aspire to stand at the forefront of innovation and excellence in engineering solutions, firmly rooted in sustainable growth, earning recognition as the premier choice in South Africa within our industry.

Our Mission

Dedicated to the fabrication, construction, and installation of comprehensive engineering solutions, we are committed to driving the prosperity of all stakeholders. Through unwavering dedication to quality in our actions, products, and services, we aim to deliver unparalleled customer satisfaction.

Our Values

At the core of our identity lie our values, shaping our character and guiding our endeavours. With a steadfast commitment to excellence, integrity, customer-centricity, accountability, and safety, we align every facet of our operations with the highest standards of professionalism and integrity, mirroring the trust and honesty our clients cherish.

MEET THE FOUNDER

Reginald Mlangeni is a distinguished professional with a robust background in mechanical and electrical engineering, backed by over 16 years of experience. Beginning his career as an apprentice at Bucyrus International where he specialised in dragline machinery, his career trajectory continued upward as he further sharpened his expertise with roles as a mechanical supervisor, this solidified his reputation in the industry.

Leveraging his extensive experience in refineries, mining, petrochemicals, and power generation, he founded Linemax Engineering. Under his leadership, the firm has become a premier, 100% black-owned construction and engineering company, known for its excellence in integrated solutions and commitment to quality. His approach and focus on sustainable growth has ensured unparalleled customer service and strong partnerships across both public and private sectors.

OUR CLIENTS

We've had the honour of working with some amazing clients as their trusted partner for their esteemed projects. Here are some of our clients.

GLENCORE

OUR SERVICES

We offer an array of world-class services, aimed at meeting the unique needs of all our clients.

1

Demolition & Transportation

Expert demolition and transportation of civil, mechanical, and electrical infrastructure with a focus on safety and efficiency.

2

Material Stripping & Recycling

Precise stripping and dismantling of reusable materials and equipment to maximise resource recovery and minimize waste.

3

Hazardous Material Handling

Safe pumping and decanting of hydrocarbons and hazardous materials using approved processes for optimal safety and effectiveness.

4

Site Management & Infrastructure Maintenance

Comprehensive management of demolition sites, infrastructure maintenance, and method statement design for efficient structure demolition.

5

Resource Procurement

Sourcing and providing specialised resources essential for project execution, ensuring seamless operations and quality outcomes.

6

Document Drafting & Compliance

Drafting, compiling, & submitting necessary documentation, obtaining permits, and ensuring compliance with regulatory standards in collaboration with mine representatives.

OUR SERVICES

Impeller Inspection & Clearance Setting

Centrifugal Pump Repair & Installation

High Pressure Descaling & Cleaning

OUR SERVICES

Heat Exchange High Pressure Cleaning

Valve Casting & Machining

Underground Machinery Repairs

HEALTH SAFETY QUALITY ENVIRONMENT

We steadfastly uphold the moral and legal imperative to safeguard and preserve the well-being of our personnel, ensuring a culture of safety permeates every facet of our operations. Committed to the stringent adherence of Occupational Health and Safety (OHS) standards, our ethos revolves around achieving a flawless safety record, epitomised by our unwavering pursuit of '0/100%' – zero fatalities and injuries across 100% of our endeavours.

Responsibility for upholding these exacting standards extends comprehensively across all stakeholders, from employees to subcontractors and third parties, where active participation and meticulous attention to safety protocols are non-negotiable imperatives. Our commitment to continuous improvement is manifest in our comprehensive awareness programs, empowering our workforce to remain vigilant, preempt hazards, and respond effectively to unforeseen circumstances.

Our rigorous medical fitness program ensures that every team member is rigorously tested for their ability to operate within a construction environment, with a dedicated focus on managing high-risk medical conditions and ensuring compliance with legislative frameworks governing Occupational Health and Safety, Mine Health and Safety, and environmental quality standards.

OUR ACCREDITATIONS

Our accreditations prove our commitment to pursuing excellence in this space and continuing to provide unparalleled services to our clients.
